

Occupational Science & Occupational Therapy UNIVERSITY OF TORONTO

Posting Date: March 30, 2022

[Department of Occupational Science and Occupational Therapy/Temerty Faculty of Medicine]

University of Toronto

JOB POSTING – POSTDOCTORAL FELLOW

Area of Research:

Occupation-based interventions for preventing high-risk behaviors in the workplace with a focus on workplace mental health

Description of duties:

The position requires working closely with the PI, Dr. Nowrouzi-Kia and with graduate students. We promote collaborations with various groups in the department, nationally, and internationally. The Postdoc candidates are encouraged to attend national and international conferences and present their research, as well as to attend workshops that may advance their portfolio and skills. The trainees will be involved in the process of grant applications as well as manuscript preparation and submission. Although it is not required for acceptance, the trainees are expected to apply for funding once they join our team. Moreover, the postdoc trainees are encouraged to explore new areas of research that are within the scope of the lab.

Salary:

\$60,000 per annum

Required qualifications

- A successful candidate should have a degree in PhD and/or MD
- Strong research record
- Excellent organizational and analytical skills
- High degree of independence and flexibility
- Excellent written and verbal communication skills
- Ability and willingness to work in a dynamic interdisciplinary team environment
- Experience with machine learning, programming languages such as Python, Linux and scripting is an asset.

Application instructions

All individuals interested in this position must submit their CV, Cover letter, One-page summary of previous research experience, three references and two sample publications (first author publications preferred) to behdin.nowrouzi.kia@utoronto.ca under the subject line PDF position by the closing date.

Occupational Science & Occupational Therapy UNIVERSITY OF TORONTO

Closing date:

April 30, 2022

Supervisor:

Dr. Behdin Nowrouzi-Kia

Email: behdin.nowrouzi.kia@utoronto.ca

Website: <https://uoft.me/BNowrouzi-Kia>

Lab website: <http://restore.rehab/>

Expected start date:

May 2022 (negotiable)

Term:

12-month (one-year) appointment that may be extended up to a maximum of three years, with annual renewal contingent on performance and available funding

FTE:

This is a full-time position. The normal hours of work are 40 hours per week for a full-time postdoctoral fellow (pro-rated for those holding a partial appointment) recognizing that the needs of the employee's research and training and the needs of the supervisor's research program may require flexibility in the performance of the employee's duties and hours of work.

Employment as a Postdoctoral Fellow at the University of Toronto is covered by the terms of the CUPE 3902 Unit 5 Collective Agreement.

This job is posted in accordance with the CUPE 3902 Unit 5 Collective Agreement. The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas.
